671930.

Hours of Operation: Monday: 8.30-10.00; Wednesday and Friday: 10.30-12.30; Thursday:
17.00-18.00

HOW TO RECYCLE DRY WASTE

The so-called non-recyclable dry waste consists of anything that is not possible or convenient to differentiate and recycle. It is usually collected in garbage dumps; however, these dumps fill up quickly. Where energy plants are present, it is transformed into energy through a waste-to-energy process. Through an optimal separate collection of this waste, the quantity of non-recyclable dry waste is reduced to a minimum, as well as its abandonment in garbage dumps.

HOW DOES THE DOOR-TO-DOOR COLLECTION WORK?

Place the waste in closed bags into the 120-liter green garbage can equipped with transponder.

The collection is carried out once a week.

CAUTION:

Random checks will be carried out to verify the correct disposal of dry waste; also, the collection will not be made in case of waste left outside of containers.

WHAT IS INCLUDED IN DRY WASTE?

- Objects made of plastic parts and rubber items
- Diapers, audio and video cassettes, floppy disks and CDs
- Nylon panty hoses, rags, cigarette butts
- Light bulbs, vacuum dust
- Syringes with the cap, cotton soaked in disinfectant
- Plastic flowers
- Brushes, toothbrushes and tubes
- Seafood shells

WHAT IS NOT INCLUDED IN DRY WASTE?

- Recyclable items
- Bulky items
- Construction debris
- Special manufacturing or agricultural waste
- Containers labeled with 'T' and/or 'F'

U.M.I.D.O

HOW TO RECYCLE WET GARBAGE...

The so-called wet garbage consists of all organic waste from the kitchen. It is usually collected in garbage dumps; however, these dumps fill up quickly. By recycling this organic waste you can get excellent compost which is used as fertilizer on grass and flowers.

HOW DOES THE DOOR-TO-DOOR COLLECTION WORK?

Place the waste in closed bags into the 25-liter brown garbage can equipped with transponders. The collection is carried out twice a week during the summer and once a week during the winter.

CAUTION:

Random checks will be carried out to verify the correct disposal of organic waste; also, the collection will not be made in case of waste left outside of containers.

WHAT IS INCLUDED IN ORGANIC WASTE?

- Food leftovers (fruit, vegetables, fish, stale bread)
- Tea and chamomile filters and coffee grounds
- Ashes
- Egg shells
- Flowers
- Meat bones
- Pet litter (natural)

Upon written request at the Ufficio Tecnico (Technical Office) inside the town hall, a house composter can be loaned for free.

Comune
di Budoia

Aiutaci, non abbandonare i rifiuti

Help us, not throwover garbage

rifiuti garbage		cosa si può conferire what you can give
CARTA E CARTONE PAPER AND CARDBOARDS		Giornali, riviste, libri, quaderni, fotocopie, cartoncini, scatole per alimenti, scatole per calzature e per abbigliamento, ecc.
